

AYURDISHA

Meet the Mentors · Experience Zone

11th World Ayurveda Congress · Bhubaneswar 2026

COMMITTEE PRESENTATION · SEPTEMBER 2026

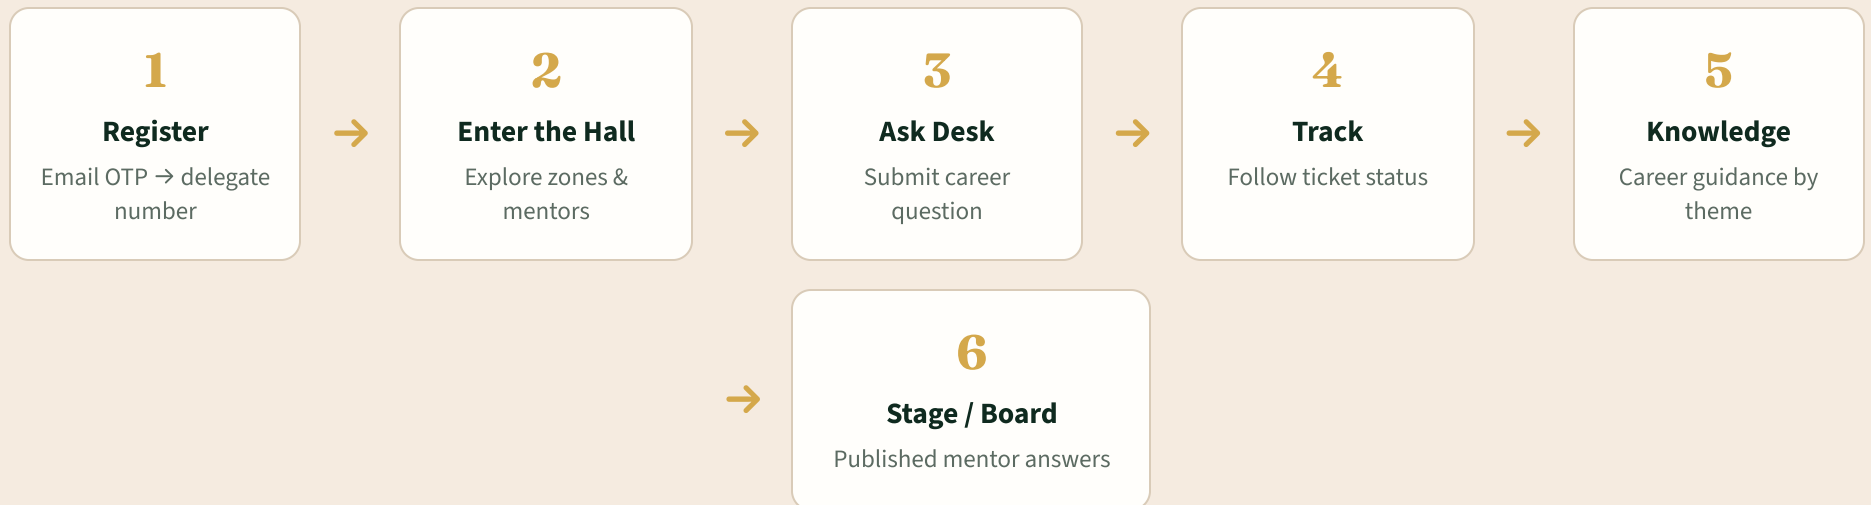

What is AYURDISHA?

- A **digital hall** for BAMS mentees at the 11th World Ayurveda Congress — register once, return anytime with your delegate number.
- **Mentor Q&A** — submit focused career questions, track answers, and read published guidance from experienced practitioners.
- An integrated **congress experience zone** connecting delegates, mentors, and organisers before, during, and after the event.

Who is it for?

- **BAMS students & delegates** — register with email OTP, receive a 6-digit delegate number, ask career questions, and follow ticket status.
- **Mentors** — answer curated question clusters; published responses appear on the Stage and Board for all delegates.
- **Staff & organisers** — curation desk, insights dashboard, mentor packs, and delegate lists for real-time congress coordination.

How it works

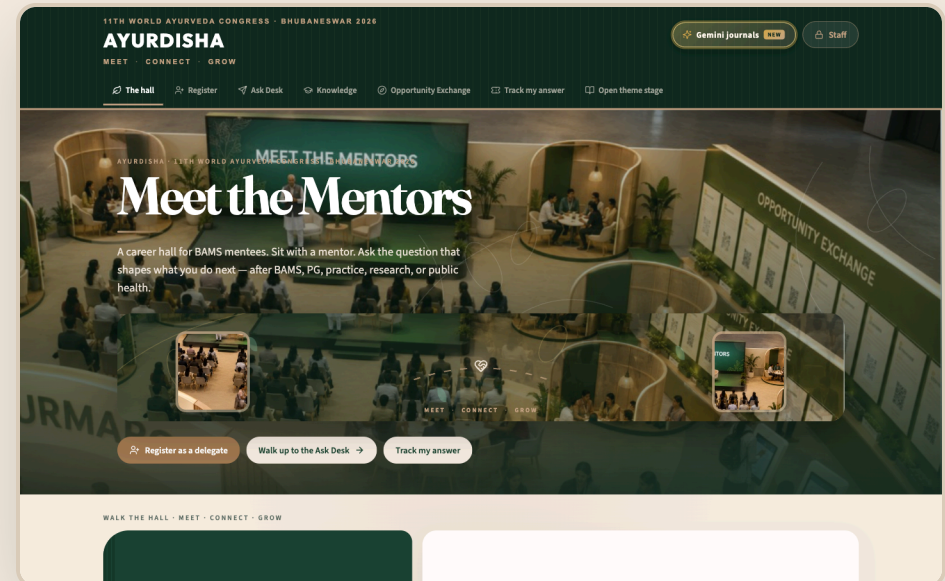

STAFF WORKFLOW

Curation → Merge similar questions → Mentor answers → Publish to hall & Track

The Digital Hall

- Central navigation hub for the congress experience zone.
- Mentor clusters organised by career theme — PG, clinic, research, service, and more.
- Quick access to Ask Desk, Knowledge, Track, Stage, and Opportunity Exchange.

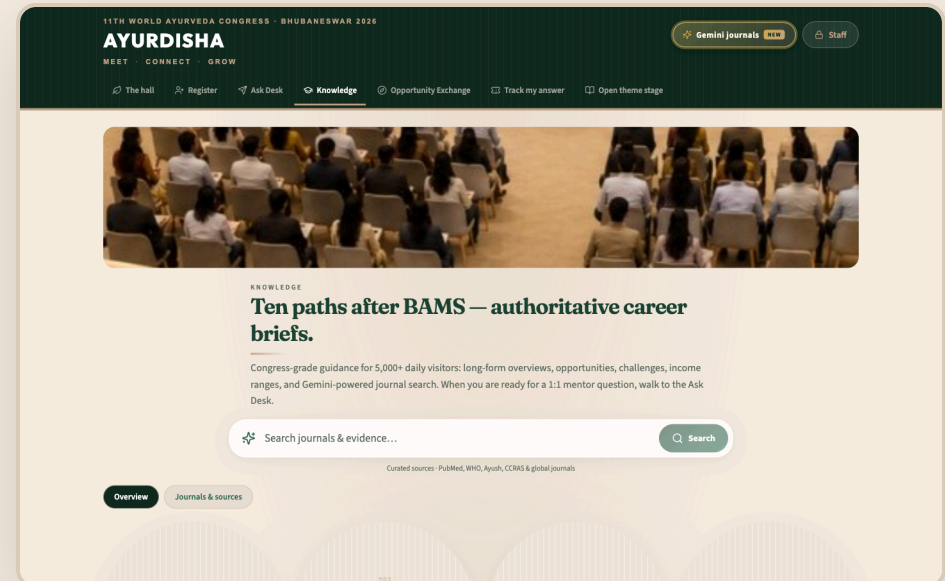

Registration & Ask Desk

- **Register** with institutional email — OTP verification ensures one delegate per person.
- Receive a permanent **6-digit delegate number** for all future visits.
- **Ask Desk** — one focused career question per submission; option to merge similar questions for broader hall answers.

Knowledge Hub

- Themed career pods — PG admission, private practice, research, AYUSH service, start-ups, and international pathways.
- Curated guidance articles, journal references, and evidence summaries for each theme.
- Delegates read evidence first, then submit personal questions at the Ask Desk for mentor answers.

Staff Tools

- **Curation desk** — review incoming questions, merge similar submissions, assign to mentor clusters, and publish answers.
- **Insights dashboard** — real-time delegate counts, question volume, and theme distribution during congress.
- **Mentor pack** — export curated question batches for offline mentor review and bulk answer import.
- **Delegate list** — searchable registry with registration status, ticket tracking, and in-person shortlist flags.

Opportunity Exchange & Track

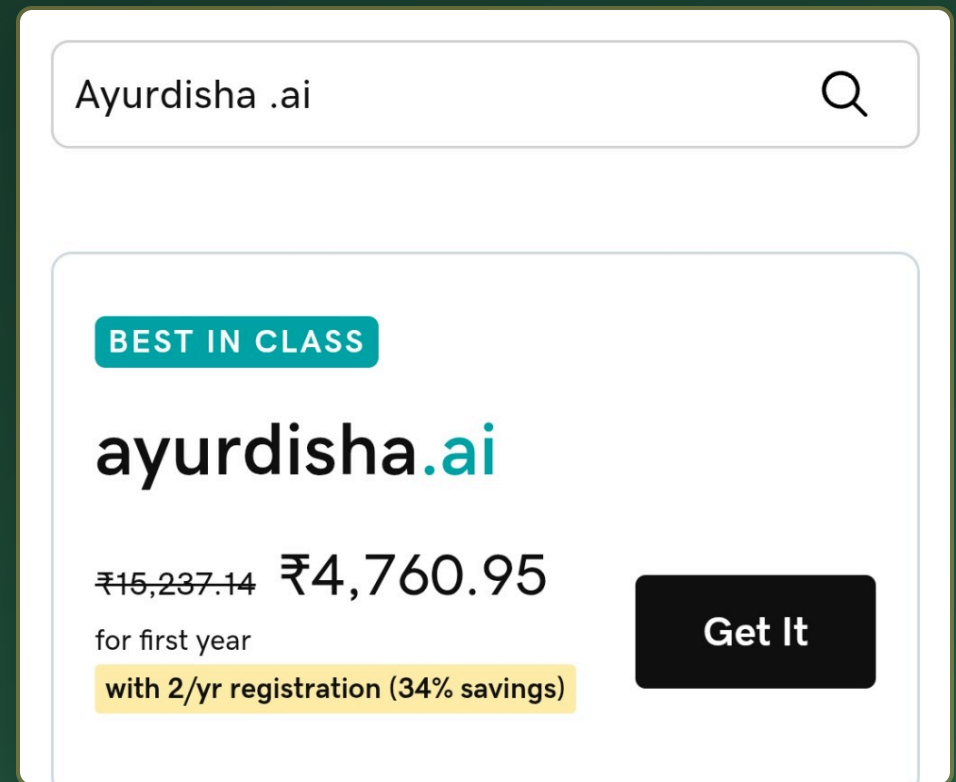

- **Opportunity Exchange** — congress announcements, fellowships, internships, and career openings shared with registered delegates.
- **Track my answer** — delegates enter their 6-digit number to check ticket status and read mentor responses.
- **Stage & Board** — published hall answers visible to all; shortlisted mentees may be invited for in-person sessions.
- Delegates not shortlisted remain fully connected — same Track page, same delegate number, same hall on any device.

Technology

- **Serverless architecture** — Google Cloud Firestore for data, Vercel for hosting and API functions; no dedicated servers.
- **Secure OTP registration** — transactional email verification with signed HttpOnly session cookies.
- **Multi-staff coordination** — real-time Firestore sync for curation desk, insights, and delegate management.
- **Production-ready** — security rules, App Check, monitoring, and congress-week on-call support planned.

Domain — ayurdisha.ai

- Official congress domain registered via **GoDaddy**.
- **ayurdisha.ai** — first year: ₹4,761 (registrar quote on file).
- DNS cutover planned from preview deployment to production domain before congress.
- SSL certificate included; CDN via Vercel for global delegate access.

Budget Summary — Overview

Total Allocation: ₹1,00,000 (~\$1,176 USD)

SCENARIO	PHASE 1	PHASE 2	CONTINGENCY	TOTAL (INR)
Minimum	₹40,000	₹24,000	₹11,000	₹75,000
Recommended ★	₹60,000	₹29,000	₹11,000	₹1,00,000
Maximum	₹88,000	₹30,000	₹12,000	₹1,25,000
