PLANNED DOMAIN	ayurdisha.ai
DATE	September 2026
CLASSIFICATION	Internal — Organising Committee Review

ES

Executive Summary

This proposal outlines the premium-tier infrastructure, platform development, and operational budget to support **AYURDISHA** under extreme concurrent user volumes. To guarantee absolute uptime during peak hours of the 11th World Ayurveda Congress (with an estimated 5,000+ concurrent active delegates registering and interacting with the platform), this premium scenario utilizes Vercel Enterprise scaling, professional transactional OTP gateways, and Antigravity AI Ultra capabilities.

The standard free or lower paid tiers will **inevitably throttle or fail** during the live opening hours when thousands of students verify their emails simultaneously.

This premium architecture uses **SendGrid/Resend Pro transactional APIs** to ensure sub-second 6-digit OTP delivery, alongside **Vercel Enterprise** to handle infinite concurrent serverless queries and prevent DDoS/automated bot registrations.

Subtotal	Description	Amount (INR)
A	Cloud & Scaling Infrastructure (Vercel Enterprise, Firebase Blaze, Resend/SendGrid Pro, SSL, Security)	₹88,500
B	AI & Development Subscriptions (Antigravity AI Ultra, Cursor Teams/Business)	₹35,000
C	Engineering, Security & Load Testing (Senior dev, concurrency test, audit)	₹63,000
D	Event Assurance & Contingency Reserves (24/7 on-call monitoring, support, backup buffer)	₹23,500
GRAND TOTAL	Comprehensive Premium Allocation	₹2,15,000

1

Itemized Premium Budget

Category	Line Item Description	Justification	Amount (INR)
A. Cloud, Scaling & Communications			
Cloud & Scaling	Vercel Enterprise Tier	Managed WAF protection, 99.99% uptime SLA, cold-start prevention, and serverless execution headroom for 5,000+ concurrent users.	₹55,000
Cloud & Scaling	Firebase Blaze (High-Performance Hub)	Unlimited database reads/writes for real-time mentor clustering, live stage synchronization, and delegate data export.	₹15,000
Communications	SendGrid/Resend Pro (Transactional OTP API)	Guarantees high deliverability and sub-second arrival of 6-digit email OTP codes, replacing standard Gmail (which has strict daily limits).	₹12,000
Identity & Security	ayurdisha.ai Premium Domain & SSL	Official AI-tier domain registration, CDN caching headrooms, and organization-validated security certificates.	₹6,500
B. AI Platform & Development Tools			
AI & Dev Tools	Antigravity AI Ultra Platform License	Generous token budget, ultra-low latency, and high rate limits for the Gemini-powered Knowledge search engine.	₹25,000
AI & Dev Tools	Cursor Business (Teams Subscription)	Pooled usage, priority indexing, and secure repository controls for the technical team to maintain and update the platform.	₹10,000
C. Engineering, Security & Load Testing			
Engineering	Senior Platform Development	Development of delegate OTP verification, mentor curation desk, briefing pack generator, and responsive UI features.	₹45,000
Engineering	Security Audit & Concurrency Load Testing	Third-party penetration testing and simulating 3,000 simultaneous users to prevent opening-day crash.	₹18,000
D. Operational Support & Reserves			
Assurance	24/7 Event-Week On-call Support	Direct live monitoring (Sentry/UptimeRobot premium) and active engineering team to support the 3-day congress.	₹16,000
Reserves	Technical Contingency Buffer	Unforeseen scaling spikes, additional database indexes, or emergency hotfixes during the event cycle.	₹7,500
GRAND TOTAL PREMIUM SCENARIO			₹2,15,000

Verification and Reliability: All cloud infrastructure scales fluidly based on consumption. Standard Gmail-based SMTP has a daily delivery hard-cap which makes it non-viable for a large conference; transactional Resend Pro is mandatory to ensure OTP emails are not flagged as spam.

Document	Premium Infrastructure & Technical Budget — AYURDISHA
Prepared by	AYURDISHA Technical Team, World Ayurveda Foundation
Organization	World Ayurveda Foundation
Programme	AYURDISHA — Meet the Mentors Experience Zone
Application URL	https://ayushmarg.vercel.app
Planned Domain	ayurdisha.ai
Backend Services	Firebase Firestore, Vercel Serverless (Enterprise), Resend Pro
Prepared for	World Ayurveda Foundation — Congress Organising Committee
Date	September 2026

This proposal guarantees enterprise-grade performance and absolute security compliance for high-profile public-sector and institutional use during the 11th World Ayurveda Congress. The budget allocates resources strictly to premium service contracts and verified operational providers.
